“We are proud to create and offer heritage-quality real wood furniture to help transform your house into a home.”

Scott Whittier, President/CEO

We invite you to discover Whittier Wood Furniture. We're incredibly proud to offer our heritage-quality all wood handcrafted furniture. For three generations our family has been working to maintain the integrity of quality and honesty that began with our grandfather. Our manufacturing business has evolved over the decades but the commitment to our customers and making a quality product remains steadfast. You'll be delighted in everything from our attention to detail, our commitment to sustainability and breadth of offerings.

WHO WE ARE

The Whittier family has been manufacturing quality real wood furniture for more than three generations. We emphasize quality construction and attractive styling. Using our extensive experience and knowledge as a furniture manufacturer for more than 40 years, our product is produced to exacting standards.

OUR PRODUCT

Always wood and only wood. Whittier has been making Alder furniture since 1975. Prized for its fine grain and smooth texture, Alder is a sustainable hardwood that grows abundantly in the Pacific Northwest region of the USA. We also select other woods grown and harvested across the world in an extensive range of soils and climatic conditions, making them a sustainable material of choice. None of our products contain engineered wood composite materials and all of our hardware is premium grade to ensure years of use and enjoyment.

OUR DESIGNS

We focus on clean and classic designs that are solidly built for your generation and the next. Quality craftsmanship and precision engineering combine to make a product that is not only beautiful but has an inherent integrity that will be treasured for years to come.

OUR PEOPLE

Whittier has experienced employees whose product knowledge base runs deep. We take pride in building long-term relationships with our customers, representatives and suppliers. Customer service and quality are top priorities.

OUR FACILITIES

Whittier owns and operates two facilities. Our company headquarters, production and distribution center are located in Eugene, Oregon. Here, we operate in 200,000 square feet and have seven loading docks. Our additional production facility of 172,000 square feet is located in Vietnam. It has state-of-the-art machinery, finishing equipment and five loading docks. Every operation is conducted in-house, giving us complete control over all phases of manufacturing and quality.

OUR MISSION

We promise to provide heritage-quality furniture while upholding the Whittier family legacy of honesty, integrity, dignity and passion for wood.

EARTH SMART

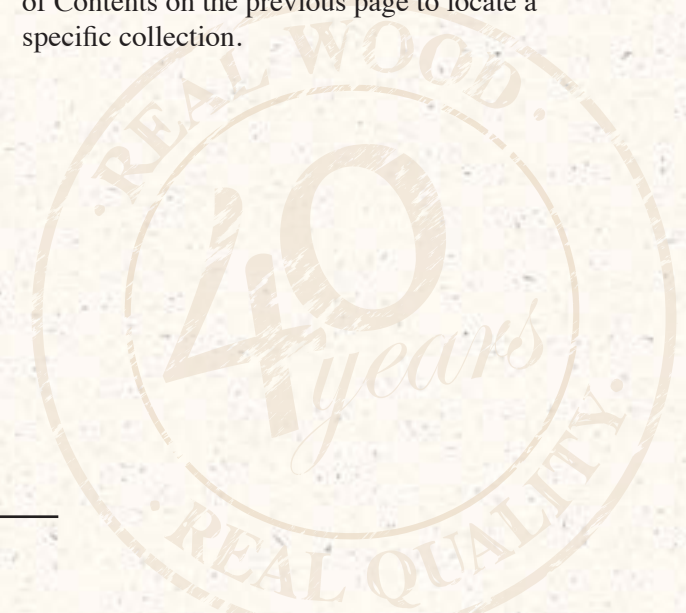

We provide a high quality product made from natural resources while supporting the environment. Company-wide we are committed to programs that recycle wood waste, paper, cardboard, glass and oil. We are respectful and devoted stewards of our human and global resources.

CERTIFIED AMERICAN ALDER

Our Alder products are made from Alder certified to the international standard Programme for the Endorsement of Forest Certification (PEFC™). For more information on the PEFC Program, please visit www.pefc.org.

COLLECTIONS

Overviews of our collections are on pages 4–37. Information and photographs of individual pieces can be found on pages 38-66. Refer to the Table of Contents on the previous page to locate a specific collection.

McKenzie Bookcase Storage Beds Glazed Antique Cherry ~ Caffè Finish

1370GAC Queen Bookcase Storage Bed,
1374GAC2 Bookcase Piers two-pack in Glazed Antique Cherry finish

This bed is the ultimate in functional storage space, beauty and quality. The headboard features large cubbies; one is accessorized with a built-in power strip and USB ports. These cubbies are perfect spots for your small electronics and accessories. As an added bonus, the hinged door opens to reveal a large concealed storage area below the cubbies for extra blankets, pillows, linens or anything else you want tucked away. Six spacious drawers on full extension ball bearing drawer slides make this dream bed one you'll enjoy for years. Enhance the Bookcase Storage Bed or the Bookcase Headboard with the lovely coordinating McKenzie Bookcase Piers. Each piece is notch cut left or right to neatly match up with the headboard and also features cord access holes and one adjustable shelf. Piers are not compatible with Twin models. King and Cal-King models feature split headboard design construction. See page 45.

Prairie City Bedroom ~ Panel Bed Style Summer ~ Autumn Finish

Panel Headboard Detail in Autumn finish

Inspiration for the new Prairie City Collection originates from the Arts and Crafts style made popular by the creations of Frank Lloyd Wright and Gustav Stickley, to name a few. Honoring the past but celebrating the present, this collection updates this American Craftsman design aesthetic by gently curving each leg, subtle arching base rails and adding darkened square pegs. Also, to further extend the line, two styles; Panel and Mantel beds are available.

Prairie City is handcrafted out of North American White Oak hardwood solids and veneers. Brought to life in our two beautiful finishes, it's the variations of grains and patterns of this gorgeous wood that make each piece unique and tell its own story.

The result is a luxurious heritage bedroom collection that will be treasured for years to come.

About Sound Systems

The designs and features of our units address the three most common sound systems.

Basic System

- Sound comes from internal speakers in the TV.
- DVD player, cable box, etc. are attached directly to the TV.

Sound Bar System

- One component with multiple directional speakers.
- A DVD player, cable box, etc. are attached directly to the Sound Bar, then to the TV.
- A subwoofer is typically a part of the system, but not stored in the furniture.

Surround Sound/Home Theater System

- A multiple component system, generally consisting of five speakers and one subwoofer.
- Center Channel speaker sits directly below and centered in front of the TV.
- Four speakers are strategically placed around the room.
- An amplifier powers the speakers for enhanced sound.
- A subwoofer is typically a part of the system, but not stored in the furniture.
