

Welcome to Whittier Wood Furniture!

We're incredibly proud to offer our heritage-quality all wood handcrafted furniture. For three generations our family has been working to maintain the integrity of quality and honesty that began with our grandfather. Our manufacturing business has evolved over the decades but the commitment to our customers and making a quality product remains steadfast. You'll be delighted in everything from our attention to detail, our commitment to sustainability and breadth of offerings.

"We are proud to create and offer heritage-quality real wood furniture to help transform your house into a home."

Scott Whittier, President/CEO

Who We Are

The Whittier family has been manufacturing quality real wood furniture for more than three generations. We emphasize quality construction and attractive styling. Using our extensive experience and knowledge as a furniture manufacturer for more than 38 years, our product is produced to exacting standards.

Our Product

Always wood and only wood. Whittier has been making Alder furniture since 1975. Prized for its fine grain and smooth texture, Alder is a sustainable hardwood that grows abundantly in the Pacific Northwest region of the USA. We also select other woods grown and harvested across the world in an extensive range of soils and climatic conditions, making them a sustainable material of choice. None of our products contain engineered wood composite materials and all of our hardware is premium grade to ensure years of use and enjoyment.

Our Designs

We focus on clean and classic designs that are solidly built for your generation and the next. Quality craftsmanship and precision engineering combine to make a product that is not only beautiful but has an inherent integrity that will be treasured for years to come.

Our People

Whittier has experienced employees whose product knowledge base runs deep. We take pride in building long-term relationships with our customers, representatives and suppliers. Customer service and quality are top priorities.

Our Facilities

Whittier owns and operates two facilities. Our company headquarters, production and distribution center are located in Eugene, Oregon. Here, we operate in 200,000 square feet and have seven loading docks. Our additional production facility of 172,000 square feet is located in Vietnam. It has state-of-the-art machinery, finishing equipment and five loading docks. Every operation is conducted in-house, giving us complete control over all phases of manufacturing and quality.

Our Mission

We promise to provide heritage-quality furniture while upholding the Whittier family legacy of honesty, integrity, dignity and passion for wood.

Earth Smart

We provide a high quality product made from natural resources while supporting the environment. Company-wide we are committed to programs that recycle wood waste, paper, cardboard, glass and oil. We are respectful and devoted stewards of our human and global resources.

Due in part to Whittier's introduction of Alder to a broader market 38 years ago, the species is highly sought after by other furniture manufacturers. Because of the increased demand for Alder, a replanting program is moving into its third decade.

Certified American Alder

Our Alder products are made from Alder certified by the *SUSTAINABLE FORESTRY INITIATIVE* (*SFI*®) program. For more information on the SFI® program, please visit www.sfiprogram.org.

Alder Collection

A great source of Whittier pride stems from the wood we select to build our furniture. Our Alder collections are handcrafted from certified sustainable American Alder hardwood grown in and native to the Pacific Northwest. We decided upon American Alder because of its inherent strength, fine close grain and smooth texture. Another bonus is once it's been finished; Alder closely resembles more expensive hardwoods. Consequently, the wood is often referred to as "the great imitator." Clearly, Alder's exquisite beauty and our exacting workmanship are not imitations. Those truths are especially evident when Whittier furniture is in its pure natural state without stains, paints or other finishes.

Our furniture is truly heritage-quality. Each piece is built with precision to ensure a tight and durable fit. We use premium grade hardware which also supports the claim that our furniture lasts a very long time. We don't scrimp on materials or cut corners in any step of our processes.

Pine Collection

Our Pine collection combines the beauty and character of Pine with Old World craftsmanship and functional design.

When making quality furniture, the rugged look of Pine has been the woodmaster's choice for centuries. The warmth, colors and natural traits of this wood extend an inviting friendliness to any room. And true to the Whittier brand, many of our Pine pieces have added storage solutions that help people organize their busy lives. Our Pine furniture is thoughtfully designed and well-constructed; two top reasons why we have so many repeat customers.

As with all of our collections, we are extremely proud of our history of positive customer satisfaction and are confident your experience with Whittier furniture will match or exceed that of countless others.

Assembled Bedroom Alder Collection

This bed is the ultimate in functional storage space, beauty and quality. The headboard features large cubbies; one is accessorized with a built-in power strip and USB port. These cubbies are perfect spots for your alarm clock, docking station, music player and reading lights. As an added bonus, the hinged door opens to reveal a large concealed storage area below the cubbies for extra blankets, pillows, linens or anything else you want tucked away. Spacious drawers on full extension ball bearing drawer slides make this dream bed one you'll enjoy for years. Enhance the Bookcase Storage Bed or the Bookcase Headboard with the lovely coordinating McKenzie Bookcase Piers. Each piece is notch cut left or right to neatly match up with the headboard and also features cord access holes and two adjustable shelves. Piers are not compatible with twin models 1359AUF or 1361AUF.

About Sound Systems

The designs and features of our units address the three most common sound systems.

Basic System

- Sound comes from internal TV speakers.
- DVD player, cable box, etc. are attached directly to the TV.

Sound Bar System

- One component with multiple directional speakers.
- A DVD player, cable box, etc. are attached directly to the Sound Bar, then to the TV.
- A subwoofer is typically a part of the system, but not stored in the furniture.

Surround Sound/Home Theater System

- A multiple component system, generally consisting of five speakers and one subwoofer.
- Center Channel speaker sits directly below and centered in front of the TV.
- Four speakers are strategically placed around the room.
- An amplifier powers the speakers for enhanced sound.
- A subwoofer is typically a part of the system, but not stored in the furniture.

McKenzie Living Room

Synergize rooms and coordinate décors with our McKenzie Occasional Tables. Working in concert with the media pieces, these tables offer a great combination of beauty and storage.
