K	9507923	Velvet Pad 50 x 50mm		3
L	9508791	Mirror Wall Bracket		2 (1 attached)
M	14981431	Stile (attached)		2

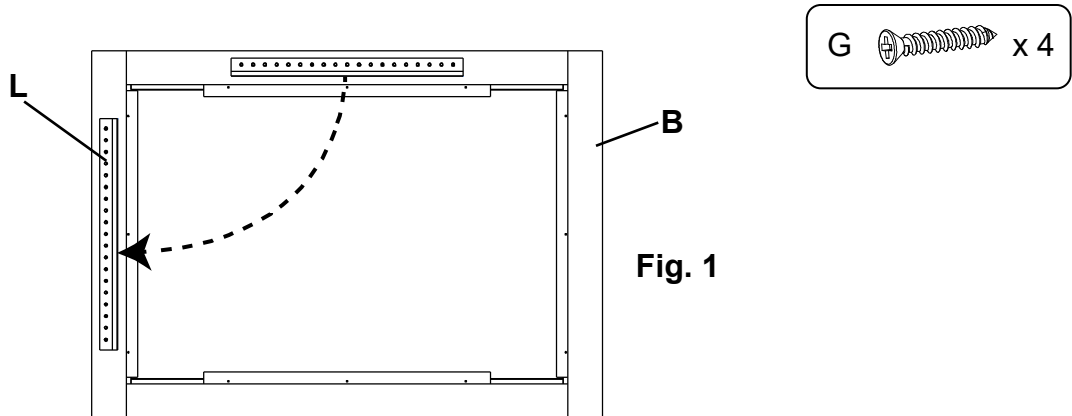

1498 Bailey Beveled Mirror

Assembly Instructions

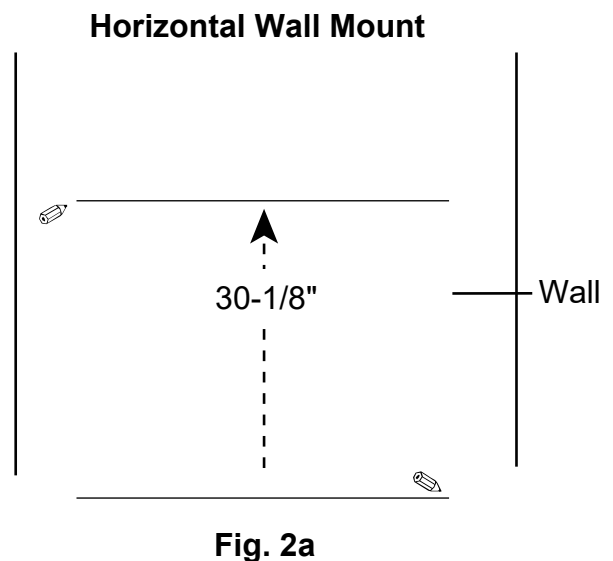

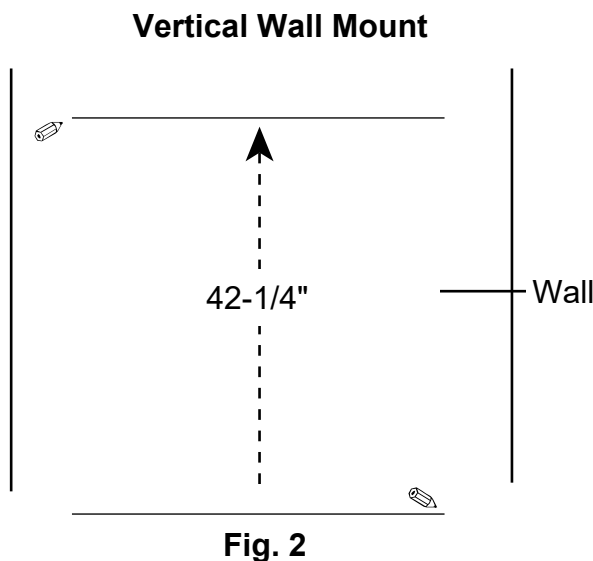

Tools Required: Phillips Screwdriver, Tape Measure, Pencil

You have the option of attaching your Mirror to the wall or to selected Bailey Dressers. To attach your Mirror to the wall, follow steps 1 – 4. To attach the Mirror horizontally to a compatible Bailey Dresser, follow steps 5 – 8.

1. Decide if you want your Mirror to hang either vertically or horizontally. If you want it to hang vertically, remove the Mirror Wall Bracket (L) and line it up to the predrilled holes on the short side of the Mirror Frame (B) as in Figure 1. Attach with four #6 x 3/4" Flat Head Screws (G).

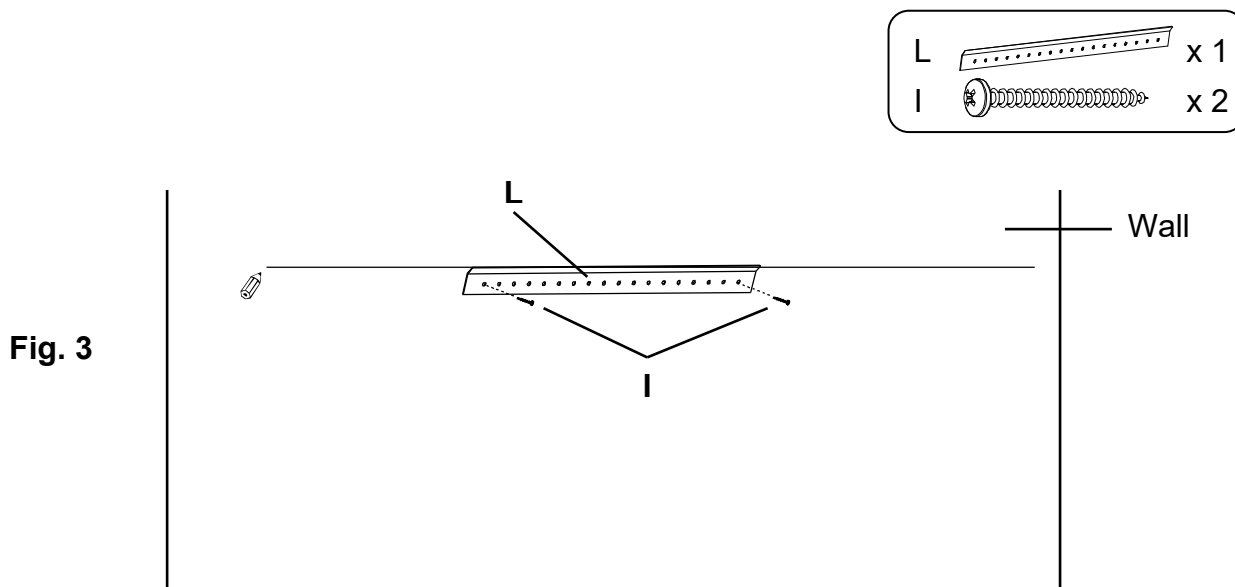

2. Determine where you want the bottom of your mirror to end and draw a faint pencil line on the wall. For a vertical placement, use a tape measure and measure up 42-1/4" from that mark. Draw a faint line. For a horizontal placement, measure up 30-1/8". Draw a faint line. The top line is where you attach the Mirror Wall Bracket (L). If you like, you can erase the faint bottom pencil mark. See Figures 2 and 2a.

Assembly Instructions

3. Locate two studs in the wall behind the space where you want to hang your Mirror. Affix the Mirror Wall Bracket (L) into the studs with two #8 x 1-3/4" Pan Head Screws (I). If you cannot locate two studs, purchase the proper wall attachment hardware for your type of wall and secure the bracket. See Figure 3.

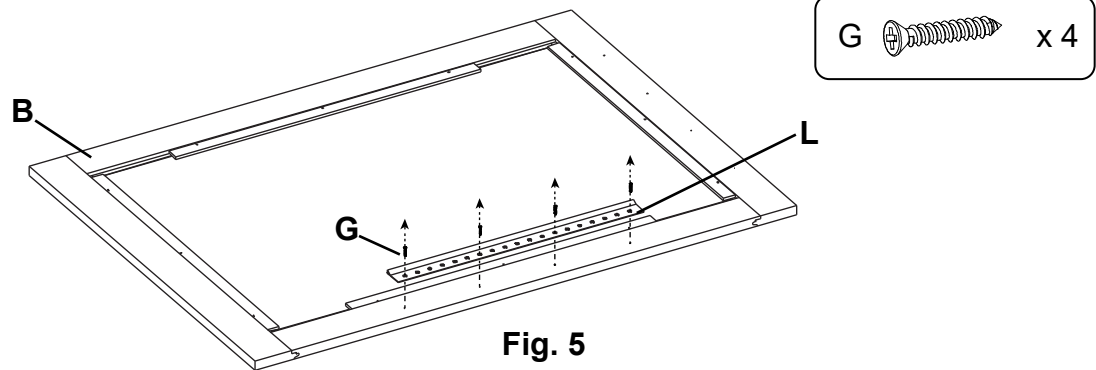

4. NOTE: The Mirror Wall Bracket (L) angles out at the top. When you hang your Mirror, the bracket that is attached to the back of the Mirror fits over the angled part of the Mirror Wall Bracket (L). See Figure 4.

Assembly Instructions

5. To attach the Mirror to a Bailey Dresser, remove the Mirror Wall Bracket (L) that is attached to the Mirror Frame (B) as shown in Figure 5. Keep these Mirror Wall Brackets (L) and the four #6 x 3/4" Flat Head Screws (G) if in the future, you will want to mount the Mirror to the wall.

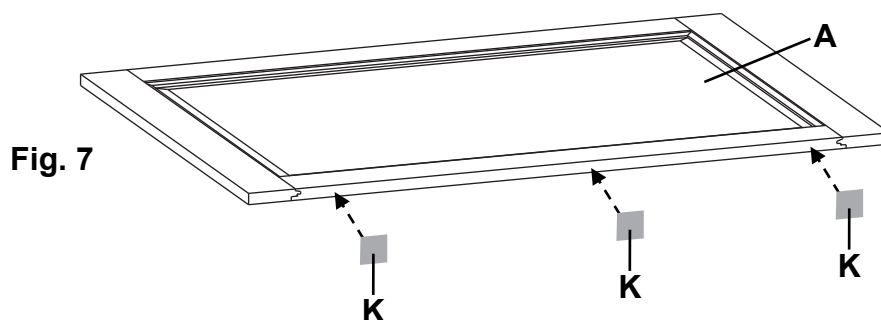

6. Using the predrilled holes on the back of the Dresser as guides, attach the two Mirror Supports (E) with four M4 x 41 Machine Screws (J). The upper screws will be inserted into the 3rd hole from the top and the lower screws will be inserted into the 1st hole from the bottom of the Mirror Supports. See Figure 6 and 6a.

Assembly Instructions

7. Peel off the backing on the Velvet Pads (K) and apply them to the bottom of the Mirror Assembly (A). See Figure 7.

8. Place the Mirror on top of the Dresser and attach it to the Mirror Supports (E) with four #6 x 1-1/4" Black Pan Head Screws (H). See Figure 8.
